# About us

J365 is a movement born from the heart of rugby in Kenya, built to connect players, mentors, and opportunities so the game's values live beyond the pitch. We believe rugby is more than a sport; it's a school of discipline, teamwork, and resilience.

Our mission is simple: **Build a stronger rugby ecosystem by building stronger people.**

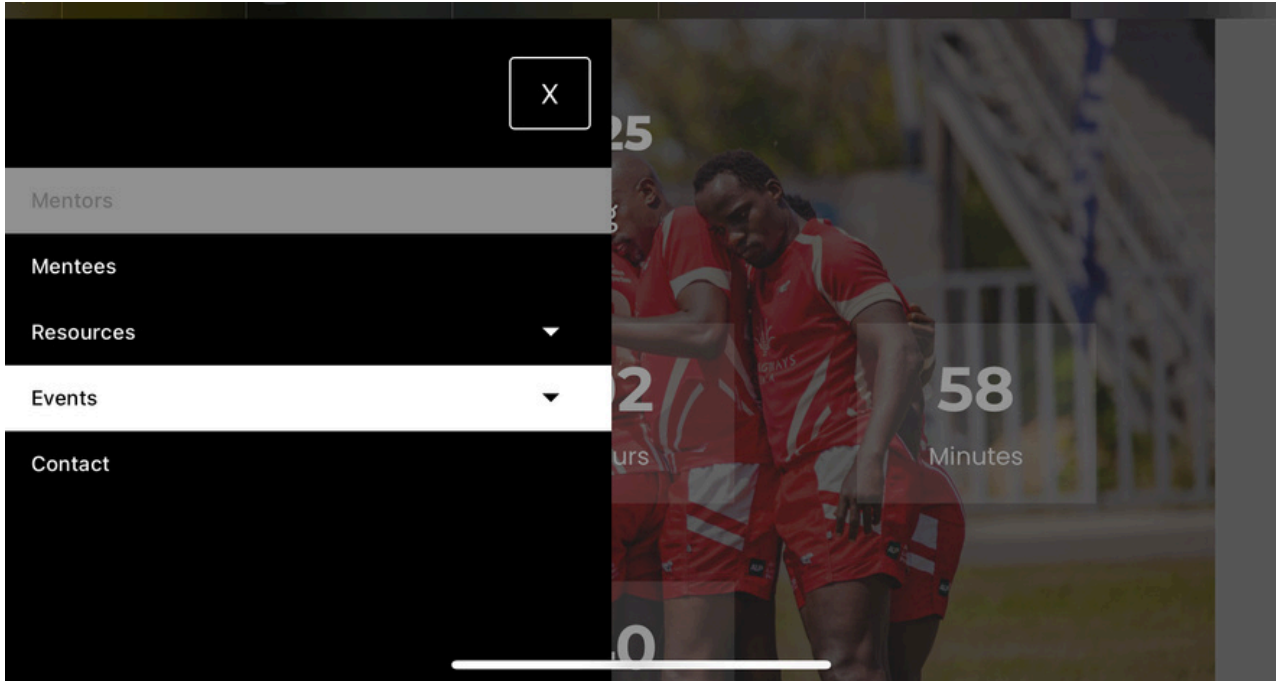

Every player's journey is different, some start with dreams on dusty fields, others under bright stadium lights. But no matter where you begin, one truth remains: you can't grow alone.

J365 is your bridge, linking rugby players, mentors, and opportunities so the game doesn't just live on the pitch but in the way we think, work, and lead.

Whether you're a young player looking for direction or a seasoned pro ready to give back, this is where your next step begins.

***The game is bigger than 80 minutes. Start building your future today.***

# Mentors

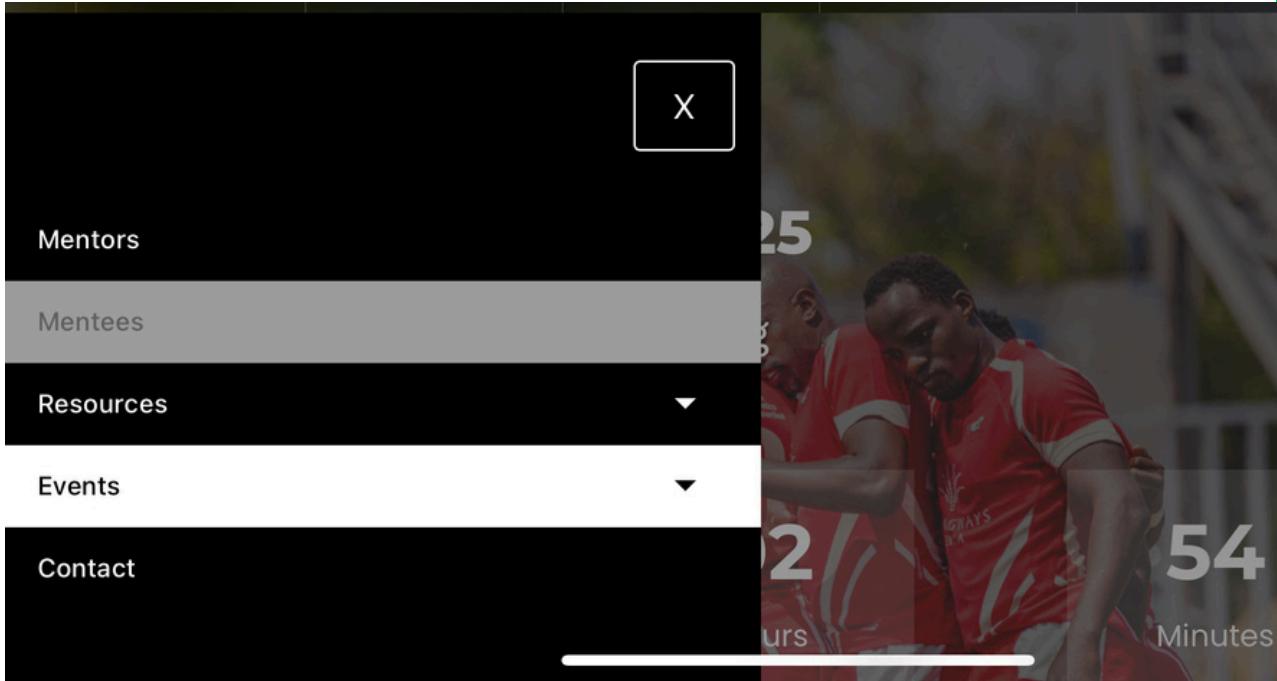

Behind every great player is someone who showed them the way, a coach, a teammate, a leader who saw their potential. At J365, mentors are that guiding hand.

If you've played the game, worked in the industry, or built skills that could help another player grow, you belong here.

You're not just shaping athletes, you're shaping leaders, professionals, and changemakers.

***Your journey can light the path for someone else. Become a J365 mentor.***

# Mentees

The rugby field teaches you resilience, teamwork, and grit. But off the field, navigating life, studies, and careers can feel like a whole new game.

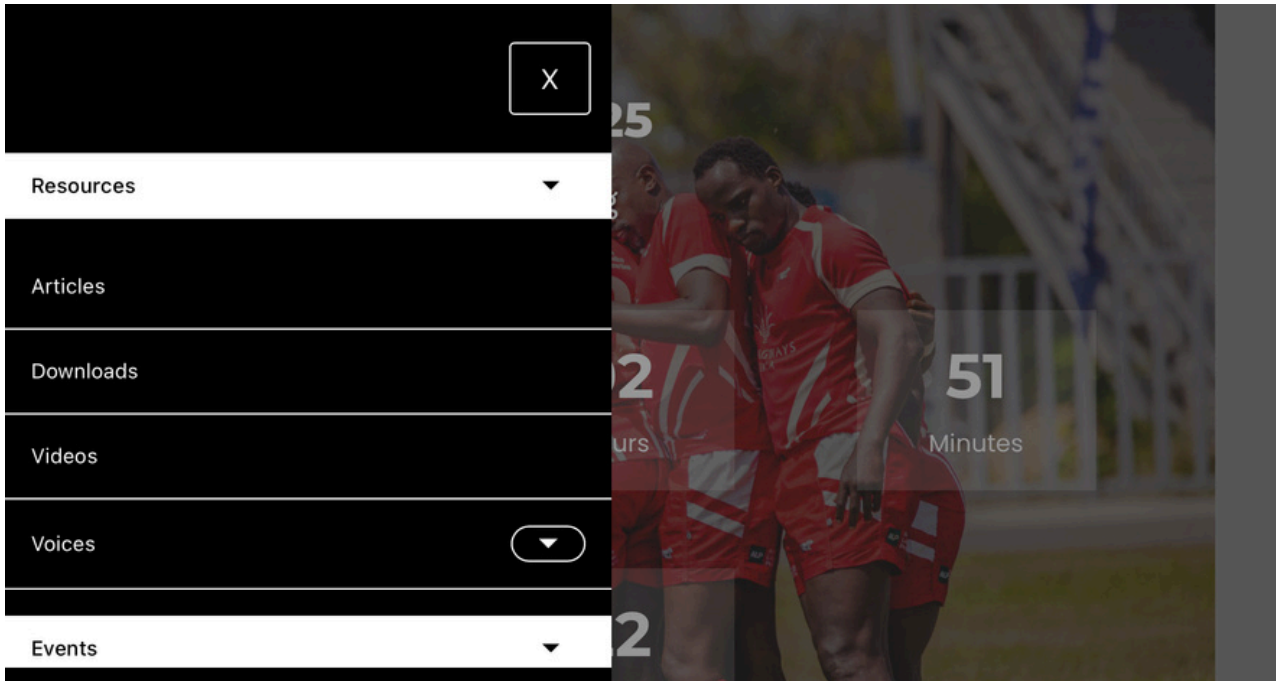

At J365, we connect you with mentors who understand both worlds. They've been where you are, juggling training, school, work, and life.

They'll guide you, challenge you, and open doors you didn't even know existed.

***Your growth doesn't stop when the whistle blows. Join as a J365 mentee.***

# Resources

Growth doesn't just happen on the training ground. It happens in conversations, in learning from others' mistakes, in building skills you'll use for years to come.

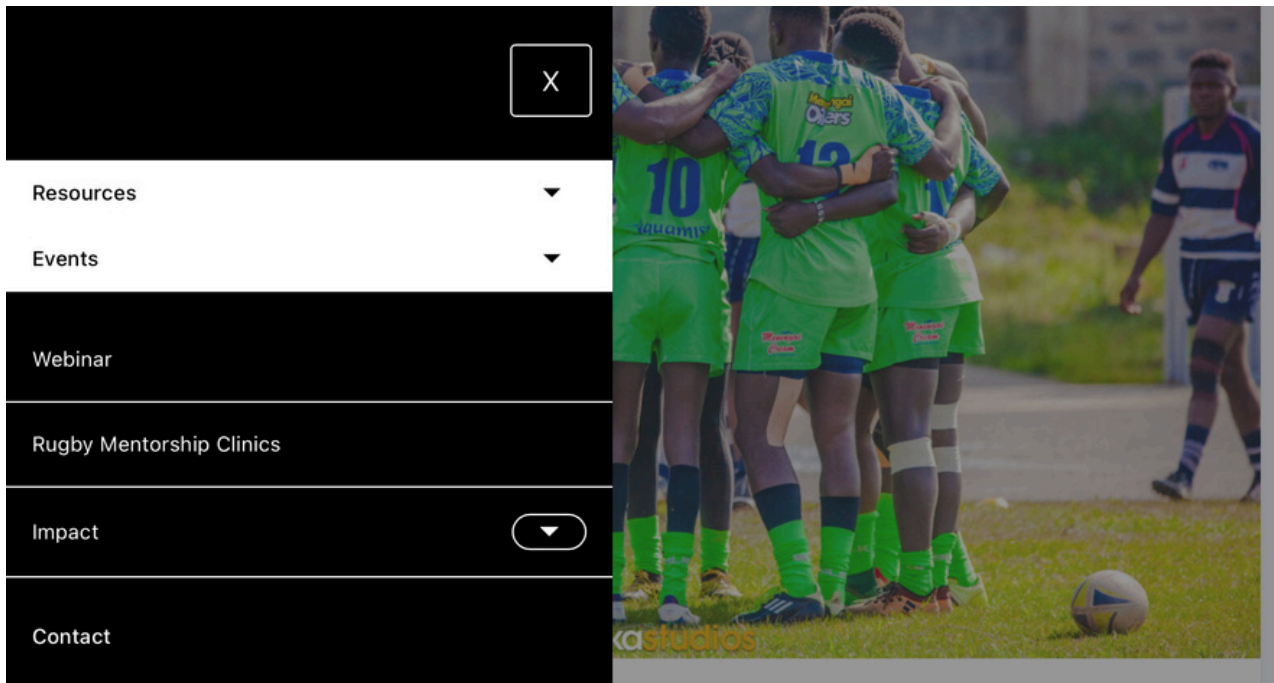

Our resources section is packed with content to help you level up:

- articles
- downloads
- videos
- X-Threads where rugby meets real talk.

Think of it as your personal playbook for life beyond the try line.

***From the pitch to your profession, we've got the tools you need to thrive.***

# Events

The spirit of rugby goes beyond the field, it's about connection, learning, and giving back. J365 events bring players, mentors, and the community together in ways that matter.

## 1. Webinars

We host interactive online sessions with experts from rugby, business, wellness, and leadership. These aren't just talks, they're conversations where you can ask questions, share experiences, and take away strategies you can use immediately.

From mastering your online presence to managing life after rugby, these sessions prepare you for every stage of your journey.

## 2. Rugby Mentorship Clinics

Think of them as skill camps for your mind and your career.

We blend rugby training with workshops on leadership, teamwork, communication, and career planning. You'll leave sharper both as a player and as a person.

## 3 Impacts

- **Social Impact**

By connecting players with mentors, creating learning spaces, and running community projects, we're helping rugby become a driver of education, opportunity, and inclusion.

- **Environmental Impact**

We weave sustainability into our projects, from promoting eco-friendly events to supporting environmental awareness campaigns within the rugby community.

***The whistle may stop, but our impact doesn't.***

To the **#RugbyKE** Family; The Game Needs Us All

Rugby in Kenya is more than a sport. It's a family, a culture, a place where discipline meets passion and teamwork becomes a way of life. But we all know once the whistle blows for the last time, life outside the pitch can be a tougher game to play.

Too many young players hang up their boots without a plan, without guidance, without the connections that could carry them into their next chapter. At the same time, we have experienced players, coaches, and professionals whose stories, skills, and networks could change those journeys forever.

That's why **#J365** exists.

We are building a movement, connecting mentees who are hungry to grow with mentors who have walked the path and know where the pitfalls and opportunities lie.

- Mentees: Here, you'll find more than advice. You'll find direction, doors opening, and people who believe in you, on and off the field.
- Mentors: Your experience is not just history, it's a toolkit for shaping the future. In giving, you'll gain too: new relationships, fresh perspectives, and the satisfaction of changing the rugby ecosystem for the better.

And it's bigger than just us.

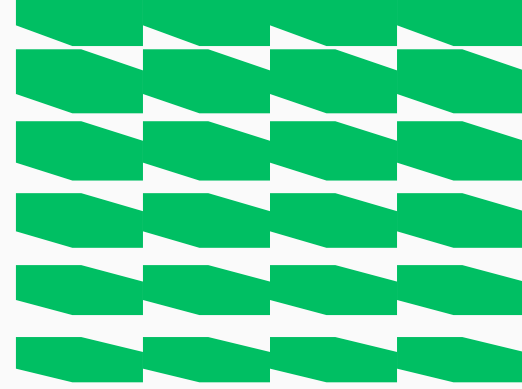

Through our **social** and **environmental impact initiatives**, we want to collaborate with organisations that share our vision for a stronger, cleaner, more united Kenya. We believe rugby can be a force for community development, education, and sustainability, but only if we work together.

We **need** you. Whether as a mentor, mentee, or collaborator, your **role** in this movement **matters**.

Let's **talk, connect**, and find ways to **lift each other higher**.

**Together**, we can make sure that every rugby journey in Kenya, past, present, and future, leads somewhere meaningful.

# Thank you!

**Thank you for taking the time to read through this and understand what J365 is all about.**

**Every minute you've spent engaging with our vision means the world to us, because it's proof that rugby in Kenya is more than a sport, it's a family that cares.**

**Whether you decide to come on board as a mentor, mentee, or collaborator, know that you're part of a movement that's determined to shape lives, create opportunities, and leave a positive mark on and off the pitch.**

**From the J365 family to you, asante sana for walking this journey with us.**
